IllumiBrite Solar LED Area & Security Lighting Solutions

Safety and Security. No matter where you need it.

SOL PROVIDES VERSATILITY

Sol's array of products provide the perfect, bright lighting - wherever it's needed - including parks, parking lots, paths, perimeters, fences, gates, remote areas, private roads, driveways, docks and ramps.

UNIFORM LED BRILLIANCE

Sol's remarkable LED technology features cutting edge optical designs with ultra-efficient LEDs and drivers that provide a more uniform bright light, concentrated where it's needed. IllumiBrite is IDA Dark-Sky compliant and offers efficient, bright and aesthetically pleasing light wherever its needed.

NO POWER? NO PROBLEM.

Security lighting often is needed where no power source exists. Sol offers the incredible flexibility of solar powered lighting. It even comes with a 10-day battery backup capacity.

VARIETY OF CHOICE

IllumiBrite can be mounted on your choice of a square or round standard pole made of wood, fiberglass, steel, aluminum or concrete. Complete turnkey packages like our solar LED IllumiBrite Greenway™ are also available.

EASY TO INSTALL AND MAINTENANCE-FREE

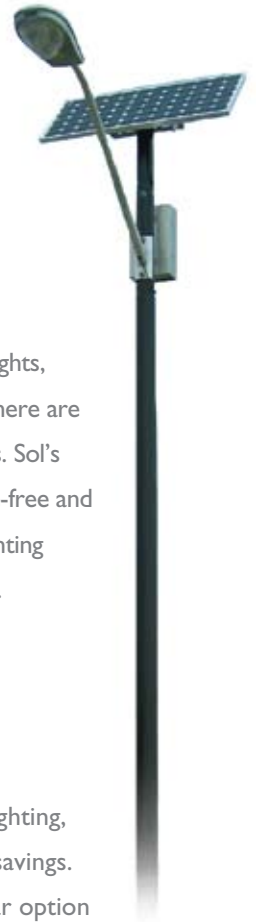

With Sol's IllumiBrite area and security lights, you save on labor and assembly costs. There are no trenching, meters or utility headaches. Sol's IllumiBrite LED systems are maintenance-free and strictly plug-and-play with plenty of mounting options. No additional wiring is required.

ENERGY EFFICIENT AND SUSTAINABLE

IllumiBrite uses up to 50% less energy compared to conventional electricity lighting, which provides significant operational savings. Plus, Sol's environmentally friendly solar option reduces the carbon footprint.

BUILT TO ENDURE

IllumiBrite is built with sturdy, corrosive-resistant aluminum and stainless steel hardware, which also helps thwart vandals. Immune to power outages and surges, it provides a service life of 100,000 hours, which is at least 15 years of brilliant illumination. Sol also carries an industry-leading 5-year warranty.
