IllumiBrite Greenway™ Solar LED Lighting Solution

The eco-smart choice
for safety and security

ENERGY-EFFICIENT AND SUSTAINABLE

Thanks to eco-friendly solar energy, the IllumiBrite Greenway™ helps to reduce your carbon footprint and eliminate electricity costs. In every climate and every season, IllumiBrite solar LED lighting is the proven solution.

MINIMIZES LIGHT POLLUTION

Sol's state-of-the-art LED light source and Max-Lite™ Reflector combine to optimize illumination where you want it. The system features "dark sky friendly" fixtures approved by the International Dark Sky Association.

ENGINEERED TO ENDURE

Sol's IllumiBrite LED is vandal and corrosion resistant. It delivers a 100,000 hour service life—that's 15 years of brilliant illumination. Most importantly, IllumiBrite carries an industry-leading 5-year warranty.

UNIFORM LED BRILLIANCE

Sol's proven LED technology provides uniform brilliance and ultra-bright coverage. It's perfect for providing safety and security on hiking and biking trails, walkways, pathways and outdoor activity areas and parks.

NO POWER? NO PROBLEM.

Off the grid, Sol has the illumination answer: the IllumiBrite solar-powered LED lighting system. Install it wherever light is needed, and the 10-day autonomy rating (battery backup) ensures trouble-free operation almost anywhere—even during the worst weather conditions.

EASY TO INSTALL AND MAINTENANCE-FREE

Sol's IllumiBrite Greenway™ can be installed in less than an hour, and can be placed in virtually any location that isn't shaded. Say goodbye to headaches and costs of wiring, trenching, and meters.
