# IllumiBrite Solar LED Street & Roadway Lighting Solutions

Shining the way. No matter where you need it.

## SOL PROVIDES VERSATILITY

Sol's array of products provide the perfect, bright lighting - wherever it's needed. Whether lighting residential roadways, intersections, urban streets or even highways, Sol gets you where you need to go.

## UNIFORM LED BRILLIANCE

Sol's remarkable LED technology features cutting edge optical designs with ultra-efficient LEDs and drivers that provide a more uniform bright light, concentrated where it's needed. IllumiBrite is IDA Dark-Sky compliant and offers efficient, bright and aesthetically pleasing light wherever its needed.

## NO POWER? NO PROBLEM.

Street and roadway lighting often is needed where no power source exists. Sol offers the incredible flexibility of solar powered lighting. It even comes with a 10-day battery backup capacity.

## VARIETY OF CHOICE

IllumiBrite can be mounted on your choice of a square or round standard pole made of wood, fiberglass, steel, aluminum or concrete.

Complete turnkey packages are available.

## EASY TO INSTALL AND MAINTENANCE-FREE

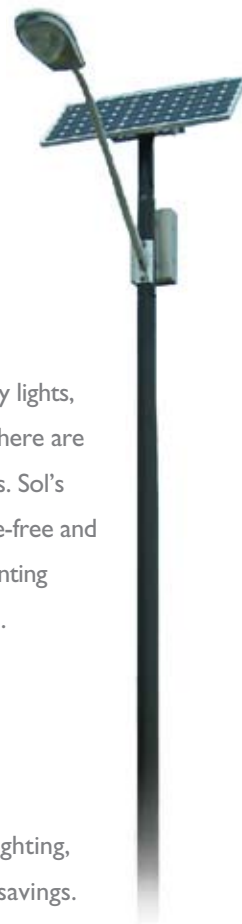

With Sol's IllumiBrite street and roadway lights, you save on labor and assembly costs. There are no trenching, meters or utility headaches. Sol's IllumiBrite LED systems are maintenance-free and strictly plug-and-play with plenty of mounting options. No additional wiring is required.

## ENERGY EFFICIENT AND SUSTAINABLE

IllumiBrite uses up to 50% less energy compared to conventional electricity lighting, which provides significant operational savings. Plus, Sol's environmentally friendly solar option reduces the carbon footprint.

## BUILT TO ENDURE

IllumiBrite is built with sturdy, corrosive-resistant aluminum and stainless steel hardware, which also helps thwart vandals. Immune to power outages and surges, it provides a service life of 100,000 hours, which is at least 15 years of brilliant illumination. Sol also carries an industry-leading 5-year warranty.
