IllumiSign solar & LED monument sign lighting

Your message shines brightly night or day

CLEAR, WHITE LIGHT WHERE YOU NEED IT

If your company's name or message can't be seen, your customers can't read it. Sol's remarkable LED floodlight technology provides ultra-bright, uniform brilliance and coverage. Whether it is lighting company monument signs, city welcome and entry signs, or transportation signs, Sol lights your message clearly and brightly.

NO POWER? NO PROBLEM.

Sol, the world leader in solar outdoor lighting for 20 years, offers the incredible flexibility of solar powered lighting. IllumiSign™ monument lighting system can be installed wherever you want your billboard located. On or off the grid, Sol is the answer.

EASY TO INSTALL

With Sol LED monuments signs, you save on labor and assembly costs. There are no trenching, meters or utility headaches. Sol's IllumiSign™ LED systems are strictly plug-and-play, with no additional wiring required.

ENERGY EFFICIENT AND SUSTAINABLE

IllumiSign™ uses as little as 10% of the electricity of conventional lighting, providing significant operational savings. Plus, Sol's environmentally friendly solar option reduces the carbon footprint.

MAINTENANCE FREE

Compared with conventional lighting, the savings on maintenance alone can pay for the Sol IllumiSign™.

BUILT TO ENDURE

IllumiSign™ is ETL listed to the UL 48 Standard and is made with a rugged aluminum housing. It provides a service life of 100,000 hours, which is at least 15 years of brilliant illumination. Best of all, IllumiSign™ carries an industry-leading 5-year warranty, thanks to proven reliability.
